STEP 2
To adjust the opening in the Tech-Connect larger, turn the knobs on the outside of the Tech-Connect (PIC 5) counter clockwise until your device will fit in between the arms. Turn the knobs clockwise to close the arms around the device. There is a locking detent under the knobs to hold them in place once they come in contact with the device. DO NOT over tighten the knobs. Tightening them too tight will not allow you to loosen them with your fingers. Periodically check the tightness of the mobile device in the Tech-Connect.

NOTE: For best results keep “L” shaped foot portion of the Tech-Connect Holder on the bottom of the device. Keep the device holding support arms centered on the mounting plate.
