PRE-INSTALLATION CONSIDERATION

The Mini Boards were designed to be used in many different locations on a variety of motorcycles. These installation instructions contain specific mounting procedures as well as general guidelines for comfortable and safe installation of the boards.

DRIVER FOOTBOARD APPLICATIONS: Ensure that the installation of the boards does not prohibit the proper function of the gear shifter or rear brake pedal. You may only be able to use the middle or front mounting hole to keep the board from extending too far forward thereby reducing gear shifter or brake pedal clearance.

PASSENGER FOOTBOARD APPLICATIONS: The boards can be installed so that they fold up in the stow position. Ensure that, when folded back, the boards do not contact any part of the motorcycle and that they remain in the stowed position during operation of the bike.
